*I am a contemporary American painter, born in Brazil. My paintings express moments in time when there are feelings of bliss, or freedom, and I freeze these beautiful moments on canvas. I rely on my heart and mind to achieve harmony in my art, and I am very fond of historic and scenic places as sources of inspiration.*

*Currently, I have found passion in Representational paintings. I apply lively acrylic colors on canvas, using as many details as my eyes can see, to bring them to life and brighten someone's day.*

*My art has won awards, such as "First Place" at the 2020 Leonardtown Art Walk and "Honorable Mention" at the 2021 Potomac River Regional Art Show. I am a member of the International Guild of Realism, the National Oil and Acrylic Painters Society, Woman Made Gallery, Annmarie Sculpture Garden & Arts Center, among others.*

*Most of my works are in private art collections throughout the United States and in Brazil.*
